Foreword

It gives me immense pleasure that Export Promotion Bureau's Pocket Export Statistics 2021-2022 is going to be published for the consecutive 4th time. Key statistical figures on country's export of commodities and services are presented in this publication in a comprehensive way.

It's appreciable that despite of the fall out of Covid-19 and the outbreak of Russia-Ukraine war our export earning could keep its pace and achieve commendable growth in FY 2021-2022. EPB publishes Pocket Export Statistics to disseminate data on country's export performance, comparison of import and export performances, export & exportable commodities and services, major export goods and services, product and service-wise export performance, year-wise export and point to point growth, destination-wise export and so on. EPB has been facilitating trade and promoting export of the country.

I acknowledge with thanks the generous support, cooperation and services from all concerned related to the export sector, especially the ASYCUDA world of National Board of Revenue (NBR) which has provided the basic data for preparing this publication.

I express my thank to the officials of EPB and others who were engaged to compile and edit data for their sincere efforts in collecting, compiling & collating in the Pocket Export Statistics 2021-2022.

Export Promotion Bureau will welcome constructive suggestions and comments with a view to further improving the quality and content of the future editions.
