

Insights of Bangladesh's Plastic Industry

During the last two decades, the plastic industry in Bangladesh has emerged as a promising industrial sector. Current market size is around US\$ 1 billion, with US\$ 714 million pertaining to the domestic and the remainder to the global market.

The plastic sector has around 3000 manufacturing units employing a total of more than 2 million people either directly or indirectly.

The plastic sector constitutes about 1.0 percent of the national GDP.
